

5.3.2- , -Student's representation and engagement in various activities

During the year 2022-23 Student Council was not formed. As per the Maharashtra Public University Act 2016, Class wise election was introduced from the year 2018-19 to form Student Council. But it was not formed because the Government of Maharashtra cancelled Student Council Elections to be held in colleges.

However, students were given opportunities in various academic and administrative bodies such as Internal Quality Assurance Committee, Cultural and Youth Festival Committee, National Service Scheme, Internal Complaints Committee, Anti-Ragging and Curbing Committee, College Development Committee. Students were assigned various responsibilities through these administrative and academic bodies which help administration in smooth organization of various programs like, Annual Sports, Shivaji University, Sangli Zonal and Inter Zonal Sports, Lead College Workshops and to maintain discipline and healthy atmosphere on the campus as well. Students also work as volunteers for social and cultural programs and NSS also. Besides students also represent in various administrative bodies and extra curricular activities for effective implementation of programs conducted in the academic year. Through these associations different curricular and extracurricular activities like Poster Presentation, Guest Lectures, Flower Exhibitions, Hemoglobin Testing for Girl students, Survey of rural family by National Service Scheme, rallies for social activities and Employment exhibition have under taken.

HB CAMPAIGN AT NSS, KANCHANPUR
MICROBIAL INFORMATION AND CENTRE OF RESEARCH ORGANIZATION
[MICRO]

Date : 08 / 03 / 2023

Day : Wednesday

Place : Kanchanpur .

Introduction :

Under **Microbial Information and Centre of Research organization [MICRO]** Microbiology Department ; of Miraj Mahavidyalaya , Miraj has done the activity at NSS , dated 08th March , 23 on Wednesday at Kanchanpur . The activity was Hb checking of womens, which was done on the occasion of International Womens Day. The visit and working activity was done by our PG students of M.Sc. I (6 Students) and M.Sc.II (all Students) The activity as carried out under the guidance of HOD Dr. Vinay V.Chaugule. The visit made students as they known about womens' health status , challenges they face to maintain their health etc.

Objective :

To estimate the Hb level in blood , and to know about health status of the womens of all ages and the problem they face regarding health in daily routine life .

Report :

The PG (M.Sc. I and II) students of Microbiology department paid a visit to Kanchapur NSS Camp . At 10.00 a.m. students reached the location and then they were prepared for the objective to be done with great care and precautions. Student proceeded for Hb estimation using Sahli's method. Students noted down every information carefully, without any mistake . Everything was being properly managed and was been done under inspection of the Doctors team .

After completion of the checking and testing, The Doctors advised the women's about how to maintain their health in accordance with the result of Hb level which was known after testing by the students. The activity was concluded in a successful manner.

OLD AGE HOME VISIT AND HB CAMPAIGN

Microbial Information and Centre of Research organization [MICRO]

Date: 25-03-2023

Venue: Kupwad

Day: Saturday

Introduction

Under **Microbial Information and Centre of Research organization [MICRO]** Students of Microbiology visited Old Age Home, Kupwad on 25th March 2023 and conducted medical camp in order to check health of old people and realize their physical problems. Students also experienced their feelings about life in old age. They expressed their happiness for the service provided in Old Age Home. The students also realized how much these old people still love their sons and relatives

Objectives

The objectives of visit were as follows:

1. Health inspection
2. Counseling regarding HB campaign
3. To understand their problems

Report

A visit to Old Age Home was organized by students of UG and PG on behalf of Department of Microbiology Under **Microbial Information and Centre of Research organization [MICRO]** on 25th March, 2023. Student inspected health of old people and hemoglobin level was also tested. Students and Teachers reached Old Age Home at 8:00 am. At first, **Dr. Vinay V. Chougule** gave information about Old Age Home and number of people living

at Old Age Home. Students were get of the opinion that these people are leading a very hard life but they were overwhelmed by the cheerful mood of old people. When they met these people, they found them happy and living a peaceful life. But most of the students realized that they are quite away from their dear ones. Students also attempted to convince them that they treat them as a family member. The old people were also advised to take care of their health and HB level. The team spared the whole day and clicked some photos with old people and it was delightful to share their feelings in most difficult phase of life. The visit also created awareness among students about the responsibility of youth towards old people.
