For MLT/DMLT Students Extra Coaching Course / Lectures (Slow learners)

Report

After passing S.S.C. Examination, some students seek admission to the vocational courses like MLT/DMLT. There is no Chemistry Subject for these courses. After completing MLT/DMLT course they are also eligible to take the admission for regular B.Sc. course.

After the completion of vocational course, above students can work as a Laboratory. Technician in Pathology Laboratory for testing Urine, Blood, Stools etc. where they realize the need knowledge of subject like Chemistry and Microbiology.

But when they seek admission in B.Sc. Course, most of the students are ignorant of Organic Chemistry and Carbon Chemistry. In such situation teaching Chemistry especially organic Chemistry to this students who don't know anything about carbon Chemistry become difficult.

Hence, Department of Chemistry has been conducting extra lectures on basic Chemistry for these students every year. Again "Basic Organic Chemistry" is also benefited to all Students. They also prepared their own notes for this basic Chemistry which becomes beneficial for them.

After completion of this extra coaching, students become aware of the subject.

So many students who benefited by this course they have given their feelings.

This effort taken by department of Chemistry has encouraged the students not only to understand the subject but also offer it as principle subject at degree level.

Mr. R.N. Dhale
Dept. of Chemistry.

Extra Coaching

For MLT/DMLT and Slow learner Students

Notice

Date: 17/07/2023

Class B.Sc-I, II & III

All The students of above class are here by informed that every year department of Chemistry is going to conduct extra lectures for slow learner students and the students who completed vocational course specially the students of **MLT & DMLT**.

So respective students should enrolled their names up to **24 July 2023** for extra coaching.

Mr.R.N.Dhale

Extra Coaching
For MLT/DMLT and Slow learner Students
Date: 24/08/2023

Class B.Sc-I

Introduction

Department of Chemistry Organized Extra Coaching for slow learners every year. Students from MLT/DMT vocational course, admitted for B.Sc course. Specially for this students "Basic Organic Chemistry" book is essential and valuable book for basic knowledge in Chemistry.

Objectives

- i) To give deep knowledge of basic chemistry
- ii) To develop scientific attitude among the students
- iii) To discuss IUPAC nomenclature system
- iv) Focus on aliphatic (open chain) and aromatic(cyclic or ring) organic compounds.

Prof. R. N. Dhale
