The Regulations Governing the Choice Based Credit System with Multiple Entry and Multiple Exit Options

(Regulations in accordance with National Education Policy 2020
with effect from Academic Year 2022-23)

Preamble

Shivaji University, Kolhapur is a premier institute of higher learning in southwest Maharashtra established in 1962, accredited by NAAC 'A++' grade with CGPA 3.52 and catering to the needs of HE learners of local and global standing.

Highlighting the importance of flexible learning, National Education Policy 2020 states that imaginative and flexible curricular structures will enable creative combinations of disciplines for study and would offer multiple entry and multiple exit (MEME) options and thus, remove the currently prevalent rigid boundaries. These would create new opportunities for students to choose and learn the subject(s) of their choice. While changing the HEI as per their preference, convenience, or necessity. In order to pave the way for seamless student mobility, the NEP 2020 envisages adjustments in the structures and lengths of degree programmes. Academic Bank of Credits (ABC) ensures seamless student mobility between or within degree-granting HEIs through a formal system of credit recognition, credit accumulation, credit transfers, and credit redemption to promote distributed and flexible teaching-learning. To take this forward, NEP 2020 promotes rigorous research-based specializations and opportunities for multidisciplinary education, at the Graduate, Master's and Doctoral level programmes in HEIs.

To reach to the design of holistic and multidisciplinary programmes as anticipated in NEP 2020, HEIs require some time to streamline it in higher education in India. As stated above, as per their (university's/ college's) preference, convenience or necessity, ideal multidisciplinary programmes may come into existence in future. However, existing undergraduate programmes may be converted into a new framework having multiple entry and multiple exit options and with additions of Skill Enhancement Courses in credit system. The continuous comprehensive evaluation is also a requirement for proper mapping of learning outcomes, course outcomes and programme outcomes as our system is based on principles of outcome based education. Hence, the university will continue its choice based credit system for quality-based evaluation of programmes.

In the light of NEP 2020, HEI can provide the courses as per their preference, convinces or necessity for the students.
